TABLE OF CONTENTS

Volume 184

ARTICLES

ARIEL, P. DONALD / Rayleigh-Taylor Instability of a Hall Plasma with Arbitrary Density Gradient 205

ATTIA, M. T. and E. M. ABULWAFA / The Polarization of Radiation Reflected Diffusely by an Inhomogeneous Plane Medium 247

BERMAN, B. G. and A. A. SUCHKOV / Evolution of a Cloudy Protogalaxy Interacting with an Early Galactic Wind and Galaxy Formation 169

BORA, M. P. and S. P. TALWAR / Gravitational Instability of a Composite System 193

CHATTERJEE, TAPAN K. / A Dynamical Study of the Frequency of Merging Galaxies 273

DAS GUPTA, SANTANU and S. R. DAS GUPTA / Laser Radiation in Active Amplifying Media Treated as a Transport Problem: Transfer Equation Derived and Exactly Solved 77

DE, S. S., B. K. SARKAR, BITHIKA GHOSH, MANASI MAL, B. GHOSH, S. BANDYOPADHYAY, S. K. ADHIKARI, and A. C. SEN / Derivations of Coupled Equations Appropriate to the Lower Regions of the Ionosphere 281

FANG, L., J. HUANG and J.-M. BONNET-BIDAUD / A Historical Supernova's Lower Limit to the Galactic Stellar Collapse Rate 221

IKHSANOV, NAZAR R. / Particle Acceleration and Main Parameters of Ultra-High Energy Gamma-Ray Binaries 297

ISSA, I. A. / Archimedes Spiral and the Surface Distribution of Dark Clouds in M31, III 227

KAMIJO, FUMIO / The Micrometeoroids in the Thermosphere and Mesosphere 147

KARANJAI, S. and T. K. DEB / Solution of the Equation of Transfer for Interlocked Multiplets with Planck Function as a Nonlinear Function of Optical Depth 57

KRZESIŃSKI, J., M. MIKOŁAJEWSKI, G. PAJDOSZ, and S. ZOLA / An Observational Study of a Spotted W UMa-Type Binary Star CK Bootis 37

KUMAR, NAGENDRA and KRISHNA M. SRIVASTAVA / The Effect of Large Larmor Radius on Nonlinear Alfvén Waves 49

MYASNIKOV, A. V. and S. A. ZHEKOV / Colliding Stellar Winds in WR+ O Binary Systems 287

MYCHELKIN, E. G. / On the Variability of Physical Constants and Conformal Transformations 235

SEMENOV, VLADIMIR S. and LEV V. BERNIKOV / Magnetic Flux Tubes – Nonlinear Strings in Relativistic Magnetohydrodynamics 157

SHARMA, K. C. and URVASHI GUPTA / Thermosolutal-Convective Instability of a Composite Plasma in a Stellar Atmosphere Including the Effects of Variable Magnetic Field and Rotation 261
SHARMA, R. C. and VEENA KUMARI / Thermosolutal-Convective Instability of a Composite Stellar Atmosphere in the Presence of a Variable Magnetic Field 43
SINGH, HARINDER PAL / Partially Degenerate Nonrelativistic Isothermal Gas Spheres in the Presence of a Magnetic Field 65
SINGH, HARINDER PAL / Relativistic Magnetic Partially Degenerate Isothermal Gas Spheres 143
STEENMAN, H. and P. S. THÉ / The Anomalous Extinction Law II. *The Effect of Changing the Lower Size Cutoff of the Particle Size Distribution* 9
TO, F. T., P. C. W. FUNG, and C. AU / Exact Two-Soliton Solutions to the Einstein Gravitational Field Equations 313
VENKATESWARLU, R. and D. R. K. REDDY / Bianchi Type-II, VIII, and IX Cosmologies with Conformally-Invariant Scalar Field and Electromagnetic Fields 153
WANG, JIN / Astrophysical Constraints on the Gravitational Constant 31
WANG, JIN / Bounds on KSVZ Axions from High Mass Star Evolution 1

ERRATUM

Chiumento, G., M. G. Lattanzi, G. Massone, R. Morbidelli, R. Pannunzio, and M. Sarasso, 'Precise Positions of Optical Counterparts of Some Radio Objects', *Astrophysics and Space Science* **177**, 93–96
